

Steeline FNW Quad 175 High Front Gutter

PROFILE

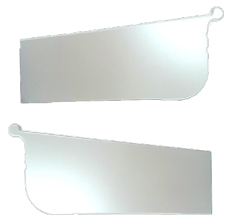

SLOT LENGTH 67±1 x 2.5mm DEEP
 93±3 PITCH = 158mm² x 11 =
 1738mm² per metre

Steeline Quad Gutter is the traditional gutter shape that gives your home a modern look. The Quad 175 High Front is a higher capacity gutter that handles lots of rainwater with ease.

Key Features:

- ✓ Manufactured from 0.42mm G550 Colorbond® or Zinalume® steel - 340mm wide
- ✓ Can be manufactured slotted or unslotted. Slots provide an overflow mechanism for the gutter
- ✓ Choice of dedicated GP Bracket, Gutter Clip & Overstrap or Gutter Spike mounting systems
- ✓ Available per lineal metre up to 8m per length
- ✓ 22 Colorbond® colour options available or a metal-coloured Zinalume® finish
- ✓ **Special Order:** 6 premium Colorbond® Matt colours and selected colours in Colorbond® Ultra for high corrosion environments

Gutter Stop Ends pair available in full range of colours to match your gutter

Quad 175 High Front GP Bracket

Quad 175 High Front Over Strap

Gutter Spring Clip

Quad 175HF Gutter Spike

Mounting with a GP Bracket (wood or metal fascia):

GP Brackets are custom made to suit the gutter profile used for mounting gutters to either metal or wood fascia. Brackets should be mounted within 150mm of either side of the rafters

Mounting with an Over Strap & Gutter Spring Clip (metal fascia only):

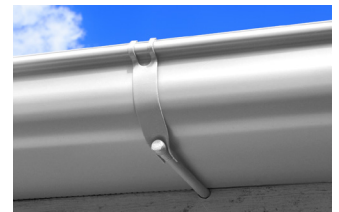

The Over Strap & Spring Clip is ideal when using a metal fascia. The Over Strap provides stiffness to the gutter and the Spring Clip slides over the fascia and gutter to hold it in place. Place Over Straps/Spring Clips every 1m along the gutter run.

Recommended Fasteners:

For GP Bracket

6-18x25mm Bugle Head Screw

Gutter Spike Mounting:

Used to secure gutter to wood fascia (selected colours).
