

# Steeline FNW Quad 150 Low Front Gutter

Steeline Quad Gutter is the traditional gutter shape that gives your home a modern look. The Quad 150 Low Front has a lower front, so your home can be protected from water overflow.

## Key Features:

- ✓ Manufactured from 0.55mm G300 Colorbond® or Zinalume® steel - 297mm wide
- ✓ Choice of dedicated GP Bracket, Gutter Clip & Overstrap or Gutter Spike mounting systems
- ✓ Available per lineal metre up to 8m per length
- ✓ 22 Colorbond® colour options available or a metal-coloured Zinalume® finish
- ✓ **Special Order:** 6 premium Colorbond® Matt colours and selected colours in Colorbond® Ultra for high corrosion environments

Gutter Stop Ends pair available in full range of colours to match your gutter

Quad 150 Low Front GP Bracket

Quad 150 Low Front Over Strap

Gutter Spring Clip

Gutter Spike

### Mounting with a GP Bracket (wood or metal fascia):

GP Brackets are custom made to suit the gutter profile used for mounting gutters to either metal or wood fascia. Brackets should be mounted within 150mm of either side of the rafters

### Recommended Fasteners:

For GP Bracket

6-18x25mm Bugle Head Screw

### Mounting with an Over Strap & Gutter Spring Clip:

The Over Strap & Spring Clip is ideal when using a metal fascia. The Over Strap provides stiffness to the gutter and the Spring Clip slides over the fascia and gutter to hold it in place. Place Over Straps/Spring Clips every 1m along the gutter run.

### Gutter Spike Mounting:

Used to secure gutter to wood fascia (selected colours).
